# Yearbook

by M'Taya Johnson

...

High School yearbooks help us reminisce and look back at the past to remember our friends, teachers, clubs, and activities throughout our high school years. It can be comical in ten years to look back at the fashions-what we wore, the styles, and how we wore our hair. We can look back and laugh at the idiosyncrasies during those years including school activities, thoughts, texting, Homecoming, Proms, Powder Puff games, entertainment, popular movies, music etc. We remember old boyfriends and girlfriends...you might have a future together and are looking back at the memories and where it all began. It is so fun to look back and read comments and messages that your fellow students and friends have written to you or about you. A yearbook is a memory book too,

## AROUND CAMPUS

it is a history of your childhood, what you were like, who your friends were, and what activities you were involved in at that time in your life. And most importantly, a yearbook takes you back to your favorite High School Memories. Although you think

you will remember it all, as years go by, you will realize the value in being able to turn those pages and revisit the "Best days of your life". Remember the daYearbookys of Westlake Thunder!

MRS. ROGERS

By: Mady Wilkins

At Westlake, we are fortunate to have many wonderful teachers in every department.

We have teachers who have taught for many years, who understand how to teach their students and do a good job performing this sometimes difficult task.

One such teacher is Mrs. Rogers.

Mrs. Rogers finds every opportunity to teach her students, even when they get off topic they are learning from her. Whether talking about monasteries, marriage, Hamlet, To Kill a Mockingbird, or even Duck Dynasty, Mrs. Rogers finds a way to teach her students something new every day. She knows how to engage her students in discussion and helps them to understand, even when concepts are difficult.

Mrs. Rogers also knows her material. She always has interesting things to say about a poem, novel, short story, article, or other reading material. She finds ways to help students understand different perspectives and views on things they would normally just read over.

We are so glad to have Mrs. Rogers as a teacher here at Westlake!

# Woodshop

By: Katy Mollinari

What exactly happens in Woodshop? The class seems to be a mystery to most of the student body. I talked to some students taking the class to get some information and their opinions on the class. The class, taught by Coach Burdett, has a really fun, crazy, loud atmosphere.

The students in the class are very skilled which makes for a great learning environment. Right now they are in the process of making drawers and jewelry boxes. Most students have an end goal to make their best and final project. I talked to Madi Johnson and she disclosed that she was excited to be making her very own longboard by the end of the semester.
